# Resources for SU2 Users & New Developers

- User forum: <https://www.cfd-online.com/Forums/su2/>
- Tutorials: <https://su2code.github.io/tutorials/home/>
- Previous meeting and workshop materials: [https://su2code.github.io/tutorials/event\\_content/](https://su2code.github.io/tutorials/event_content/)
- Recommended course work for current graduate or undergraduate students:
  - Numerical methods
  - Partial Differential Equations
  - Software Programming
  - Computational Fluid Dynamics
- Bug reporting: <https://github.com/su2code/SU2/issues>
- Ready to start developing but not sure where to start?
  - Review a pull request
  - Find a issue tagged with 'feature request'
- Want to get deeper into SU2 & CFD?
  - Find a forum post that either has 0 replies or a whole bunch – either no one knew the answer or it sparked an interesting discussion.

Thank you for  
attending the  
workshop!
